

HELPING THOSE IN NEED

The mission of the Home Builders Care Foundation is to give back by utilizing the skills and resources of building industry members on shelter-related construction for the homeless and others at-risk.

The Foundation is the official charity of the Maryland Building Industry Association and works to help local communities meet the challenges of sheltering and caring for vulnerable families and individuals.

IN THE PAST **3** YEARS THE HOME BUILDERS CARE FOUNDATION HAS

43 Community service projects and activities undertaken

3900 Men, women and children in crisis, who were provided help

300 Shelter units maintained by donated construction expertise

79 New housing units created

1200 Children who received toys and gift cards during the holiday seasons

750 Nutrition packs prepared for the homeless with crisis contact resources

5500 Items of professional clothing donated to low-income job seekers for job interviews

1 Mortgage burned when the loan for the Maryland Center for Housing, the HBCF and MBIA headquarters, was paid in full

We've done so much and we can do even more together.
